11	TASK 3	015-8771-761
12	TASK 3	015-8771-761

*At Grade 9, you can use either Advanced 2 or TASK 1 level materials. The configuration of your school system may help you determine which level is more appropriate. If Grade 9 is part of your high school system and students' instruction is focused on high school level standards in Mathematics, Science, and Language Arts, use the TASK 1 level. If Grade 9 is part of your junior high school system and students' learning is based on standards for the end of junior high school, the Advanced 2 level is more appropriate.

The **Stanford 10 Complete Battery** includes full-length versions of all subtests. The **Stanford 10 Abbreviated Battery** includes a subset of items from all Complete Battery subtests, except Listening. For a complete listing of the Abbreviated Battery, please refer to **pages 5-8** of this ordering tool.

Additionally, **Forms A and D** are identical with the exception of the format of the Language test. The **Form A** Language subtest for Primary 1-TASK 3 uses a traditional approach that measures language proficiency through the assessment of language mechanics and expression. The **Form D** Language subtest for Primary 1-TASK 3 uses a comprehensive approach that assesses language proficiency in a more holistic fashion through actual writing processes.

Form A Complete Battery Materials may be found on this and the subsequent page of this ordering tool; **Form D Complete Battery Materials**, on **page 3**; **Form A Abbreviated Battery Materials**, on **page 5**; and **Form D Abbreviated Battery Materials**, on **page 7**.

*At Grade 9, you can use either Advanced 2 or TASK 1 level materials. The configuration of your school system may help you determine which level is more appropriate. If Grade 9 is part of your high school system and students' instruction is focused on high school level standards in Mathematics, Science, and Language Arts, use the TASK 1 level. If Grade 9 is part of your junior high school system and students' learning is based on standards for the end of junior high school, the Advanced 2 level is more appropriate.

Stanford 10 Scoring & Reporting Services (cont.)

Optional Reports/Services (cont.)

Learner Competency Service

These customized reporting services enable schools to define the content of Stanford 10 in terms of their local or state objectives.

Standard

A standard file is used to generate reports. No set-up fee.

Learner Competency Reports

Reports based on student responses to items that have been “mapped” to a specific test’s objectives (standard) or to objectives for a district or state (custom).

Stanford 10 Training and Professional Development

Title	Learning Mode & Duration	Description
Implementing Stanford 10 Online	Mode - Online Training (independent) Duration - 1.5 hours (self-paced)	This self-paced course of Stanford 10 Online outlines all the steps necessary to effectively implement Stanford 10 Online.
Accessing and Reading Stanford 10 Online Reports	Mode - Online Training (independent) Duration - Self-paced	This self-paced course introduces participants to Stanford 10 online reporting, focusing on the information necessary to access, generate and use Stanford 10 reports as well as the fundamentals of data mining. This course is available to all Stanford 10 users.
Using Stanford Results and Differentiated Strategies	Mode- On-site Instructor Led Training Duration - 6 hours Minimum Participants - 10 Maximum Participants 40	This full day event is a great follow-up to a post-test workshop conducted by your Measurement Consultant. It offers participants a model for thinking about what student data is collected and how it is used to make data-driven decisions regarding students, curriculum and systems. Using Stanford 10 reports, participants will learn how to read reports and analyze their data to support students by differentiating instruction. Participants have the opportunity to discuss the interpretation of those results using worksheets that are provided in the Guide for Classroom Planning. Participants prioritize standards that need more concentration based on several criteria, and address how to make flexible grouping decisions as a strategy to meet learner needs. Examples of teaching strategies that differentiate instruction are provided so that participants may apply those strategies in the school/class setting. Activities covered are intended to model strategies for differentiating instructional content, processes, and final products, in several different topic areas and not necessarily to provide actual lesson plans using a specific curriculum. To make the most out of this session, a local facilitator should send sample reports from the district/school to the trainer 6-8 weeks in advance of the session. Participants are also encouraged to bring their own data to use during the session.

ALL PRICING FOR ON-SITE SESSIONS: \$1500 for Half-Day (3 hours) and \$2500 for Full Day (6-7 hours)

On-site Data Consultation: \$100/hour prep, \$1500 (half day), \$2500 (full day)

Remote Data Consultation - \$100/hr preparation; \$250/hour for review
