

## **IMPORTANT NOTICE—PLEASE READ**

### **Naglieri Nonverbal Ability Test, Second Edition® (NNAT2)**

Last year, we notified you that the **Naglieri Nonverbal Ability Test, Second Edition® (NNAT2)** would be retiring at the end of the 2017–2018 school year on July 1, 2018. We recommended that you order and use your remaining NNAT2 materials/licenses and plan to move to the new third edition of the Naglieri Nonverbal Ability Test (NNAT3) by the start of the 2018–2019 school year. Although we continue to encourage customers to migrate to the NNAT3, we have decided to continue supporting the NNAT2 for an additional school year.

**The availability of the NNAT2 has been extended through the 2018–2019 school year.** We will continue to sell and support the NNAT2, including all associated services such as scanning, scoring, and reporting.\*

As you consider your options for ability testing in the coming school year and beyond, we recommend moving to the NNAT3. The NNAT3 provides schools and districts with new items and parallel forms for additional administration and security options at grades K–4, as well as 2018 norms for the most up-to-date comparison of national student performance. We recognize that you have a choice when it comes to measuring student ability and Pearson is pleased to provide the tools you need, whether you use the NNAT2 or NNAT3.

If you have any questions, please contact your local Measurement Specialist, or contact Customer Service at 1-800-328-5999.

Sincerely,

Cheryl McDougald  
Vice President, Product Management

\* Access to the ONLINE Program Workshop reporting system will continue to be available for you to reference results from previous test administrations. If, at any time, Pearson decides to discontinue the online Program Workshop system, we will provide ample notice for you to download your historical data.
